

star TUP900

The Ultimate Wide Format Modular Kiosk Printer Solution

The TUP900 printing solution from Star Micronics brings the ultimate in flexibility and performance to kiosk printing. Its modular design eases integration with many different kiosk configurations.

The looping presenter of the TUP900 ensures jam-free operation by eliminating user access to the document while it is printing. The presenter also allows for the capture of documents, which are not removed by the user.

Paper handling capabilities up to 6 inch diameter paper rolls (up to 10 inch with optional Large Paper Roll Holder) with widths from 80 to 112 mm give the TUP900 ultimate paper flexibility. The Large Paper Roll Holder combined with the looping presenter ensures many hours of unattended operation.

Ideal for:

- Looping Presenter Virtually Eliminates Paper Jams
- Modular Design for Easy Integration
- Adjustable Print Width from 80mm-112mm
- High Speed: 150mm/s
- Available With or Without Presenter
- Unattended Public Operation
- Ticketing
- Gaming
- Lottery
- Web Kiosks
- ... And More!
